

Use our materials to create a Starbucks area in your break room. It's a great way to remind employees and guests that you're serving them the world's most popular coffee.

Great Coffee Comes From Great Farmers

Starbucks™ Shared Planet™ is our commitment to purchase only the highest quality, ethically sourced and responsibly grown coffee. To reduce our own environmental footprint and fight climate change. And to give back to the neighborhoods and communities we're a part of. Thanks to the customers who buy our coffee, together we are able to make — and make good on — these commitments on a truly global scale.

Helping the environment one cup at a time

Because our office coffee program exclusively uses 2.5 oz. portion packs, you're helping to cut down on the waste created by typical office coffee stations. We also proudly provide customers with our *We Proudly Serve Starbucks*® environmentally friendly hot cups in our three most popular sizes. That means that with each and every cup you, your employees and your guests are doing their part for the environment.
